My start date at this company was 11/4/87. I have worked for this company for over 35 years and I was tossed out on the street like a piece of garbage. I was a union employee at Yellow Corp and was not paid for the 60 days of the WARN ACT, which is in effect in the state of Illinois. However, all of the management people who worked in the same terminal I did in Wheeling, IL were paid severance pay. I know this for a fact, because I've spoken to several of them after the closing of the company. What I don't understand is how the company was able to pay severance pay to all the management staff, but did not pay a penny of severance to any of the union employees. So, if they can pay management severance, why wasn't I or any of the union employees paid anything? If the company knew ahead of time to pay the management employees, then there is No reason why they couldn't pay us.

Thank You
